

AccuConference 800 Call Forwarding

Create a personalized 800 number that can be forwarded to any phone, anywhere. This will provide a free and easy way for your clients and employees to contact you. Use this service to forward faxes and emails to your phone. You can also record your calls and host a conference call from anywhere.

Recording is a great way to document or archive important interviews and meetings. Download the call immediately after and then forward it to others. This is ideal for job interviews, important legal meetings, and training calls.

Benefits of using 800 Call Forwarding

- > Call recording
- > Make conference calls directly from the number
- > Caller ID shows as the 800 Forwarding number
- > Faxing
- > Voicemail
- > Change the forwarding number so that you never miss a call.

How It Works

1. Establish an account with us
2. Select your own toll-free number from the provided list.
3. Determine where you want the toll-free number to be routed.

Pricing

Only **5.9** cents per minute for a one-on-one telephone conversation using your toll-free forwarding, with 30-second billing and a **\$2.00** monthly maintenance fee.

- * \$25.00 one-time fee for a vanity number.
- * \$25.00 one-time fee for existing toll-free number transfer.

In order to transfer a toll-free number from another company, you will need to provide proof of ownership of the number in the form of a recent billing statement. It can take up to 30 days for the number to be released and transferred.

Call Forwarding Features

Toll-free Numbers

Choose from a list of toll-free numbers or request a vanity number. If you have existing toll-free number, you can transfer that number to our service.

Instant Activation

Secure your toll-free access number immediately* and be able to publish it the same day for business cards, web-site, and other advertising needs.

** Applies only to numbers that are in-stock, not vanity or transfer numbers.*

Forwarding

Your toll-free number will be routed to any phone - your cell, home, office, or any location you desire - all around the world. When someone dials your toll-free number, it will ring at the destination you have selected.

Call Recording

Each of your calls can be recorded by a simple star command (*2). Never miss that important phone conversation again.

Custom Greeting

Provide your callers with a custom greeting while being connected. Use the service to post a message, give a sales pitch, or make an announcement.

Out-Dial

Bring another person into the conversation in an instant. With a simple star command (*1 to dial out, *2 to join you both to the call), dial the number of another party and join them. You can add as many people as you need.

Faxing

Fax on demand to the same number and receive email notification when you get a fax.

Change the 800 Number

Online account management allows you to change your forwarding status at any time. Additionally, you will be able to change your status from any telephone, just in case you forget when you leave the office. Just dial into your line, enter in your PIN, and select the correct prompts.

Clarity

When your toll-free service is used, your toll-free number is displayed on Caller ID.

Call Clarity

Our service uses fiber optic lines to provide the clearest connect in the industry.
