

AccuConference Backgrounder

AccuConference Background

AccuConference is at the forefront of new trends in telephony. The reliability, flexibility and performance of AccuConference's innovative solutions create a natural communications environment that saves organizations time and money by enabling more effective and efficient communication.

Founded in 2002, AccuConference is the preeminent provider of audio and Web conferencing for businesses and individual consumers. The Company has changed the audio conferencing landscape by addressing the need of a modern distributed workplace.

AccuConference is an innovator among communication service providers, offering world-class products combined with quality customer service. AccuConference understands customers' need for real-time information, security and confidence when making a conference call and supplies a broad array of tools to meet any situation. With both packaged and customizable pricing options, AccuConference provides solutions to fit any budget.

AccuConference Features and Services

As the audio and Web conferencing provider of choice for businesses of every size and type, AccuConference features and services include:

- Toll free, international, direct connect and operator assisted conference calls that allow a moderator to manage calls through telephone controls or a web-based control panel
- Customized calls with recording and playback options, mute and un-mute features and live Q&A sessions
- Expiring PIN numbers for privacy and security
- Meeting Central™ web conferencing (provides complete desktop, application and document sharing, plus video conferencing)

- Live Webcasting (allows companies to reach current and potential investors and customers all over the world in live or pre-recorded meetings through their Web browsers) Premier quality, convenience, delivery and performance are the most important elements in effective conferencing. AccuConference develops technologies that deliver innovative and interactive solutions for all of their services.
