

AccuConference

AccuConference Fact Sheet

Corporate Background

AccuConference provides world-class audio and Web conferencing technologies, combined with quality customer service to businesses of every size and type.

AccuConference was founded in 2002 to offer the lowest rates for superlative audio and Web conferencing products and services. This “No Games/No Hassles” approach was and still is a success. AccuConference develops and utilizes innovative audio and Web conferencing technology to create products that deliver a natural and comfortable conferencing experience.

AccuConference offers customers the perfect mix of world-class products in audio and Web conferencing and outstanding customer service. AccuConference prides itself on the ability to create immediate solutions to fit any budget without compromising quality.

AccuConference serves as the audio and Web conferencing provider of choice for businesses of every size and type, including finance, education, healthcare, and manufacturing institutions.

Products

Audio Conference Call Services: AccuConference’s reservation-less conference calls enable users to conduct a conference call at any time without having to make a prior reservation. Additional features include:
